What to expect from a Justin Craig revision course
GCSE students study two subjects per course.

AS and A2 Level students
study one subject per course.

Each course offers 18 hours of revision, completed over three days.

Course duration

Note: One course runs over three days. However, two consecutive courses run over six days at a day centre and five days at a residential centre. Three courses run over nine days at a day centre and seven days at a residential centre. This is because there are evening classes at residential centres.
